

Contents -- *Physics Laboratory Experiments for the Gifted: Middle and High School* (2005) by Raja Almukahhal
Publisher: Gifted Education Press

	Preface	iv
Chapter 0	The Scientific Method	1
Chapter 1	Error Analysis	4
Chapter 2	Plotting Graphs	11
Chapter 3	Rapid Estimating	16
Chapter 4	The Simple Pendulum	19
Chapter 5	Newton's Law of Motion	24
Chapter 6	The Atwood Machine	28
Chapter 7	Friction	35
Chapter 8	Reflection and Refraction	40
Chapter 9	Buoyancy	47
Chapter 10	Specific Heat	52
Chapter 11	Newton's Law of Cooling	56
Chapter 12	Torque	61
Chapter 13	Topics in Cosmology	69
Chapter 14	Kepler's Laws of Planetary Motion	77
Appendix A	Specific Heats of Various Substances	81
Appendix B	Physical and Astronomical Data	82
Appendix C	Index of Refraction and Density	84
Appendix D	How to Use EXCEL to Graph	85
Appendix E	Format for Writing a Lab Report	86
	About the Author	87
