Spring 2012 Comprehensive Resource on Planning and Implementing STEM ROBOTICS Education Programs for Gifted Students

STEM Robotics in the Gifted Classroom: Meet ROBO-MAN!
Upper Elementary through Secondary Levels
(ISBN 0-910609-61-6)

Harry Roman discusses the history of robotics, current robotic applications, robot design and math, STEM robot challenge lessons, and classroom robotic activities. This is an essential book for parents and educators that contains many specific suggestions for use by teachers of

the gifted in presenting an integrated ***STEM ROBOTICS PROGRAM***.
